

Presets

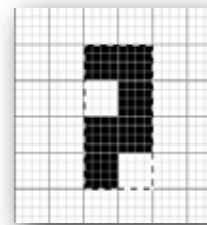

1. New File—Show Grid—Zoom

- ▼ **File > New (ctrl+N / ⌘ + N)**
Any size; RGB
- ▼ **View > Zoom In (ctrl + / ⌘ +)**
- ▼ **View > Show Grid (ctrl + ' / ⌘ + ')**

2. Draw Pattern

- ▼ **Default colors (D)**
black & white
- ▼ **Select Pencil Tool** one pixel size. Draw the pattern.

3. Define Preset

- ▼ **Rectangular Selection Tool**
Select ALL pixels in the pattern taking care that no extraneous pixels are included.
- ▼ **Edit > Define Pattern** type appropriate name.

4. Save Set of Presets

- ▼ **Edit > Preset Manager**
- ▼ **Click** on the first preset in the group, depress and hold the shift key, and click on last preset in group.
- ▼ **Click Save Set**

The program usually defaults to the Photoshop or Elements Preset folder. Save groups of presets in **Presets > Patterns** with appropriate names.
